### Letter to Barclay Bros.

Barre, Vt.

Dear Sirs: "Three-quarter paint" is a good phrase for the best outside of Devco. Devco is the standard; mark it 100. The next best—there are several not far apart—are three quarter paints; you may mark them 75 to Devco's 100.

The bulk of the paints in market are 40 or 50 or 60; a few are better than 60; a few are worse than 40.

How do they act? They cover from one to three-quarters as much as Devco; and they last from one to three-quarters as long as Devco.

What are they worth? The same rule don't hold; it costs more to put on some paints than they are worth; they are not worth anything; the "put-on" costs two or three times as much as the paint.

Yours truly,

F. W. Devco & Co.
